

COSPHADERM® MAGNOLIA EXTRACT 98

Cosphatec

Cosphaderm® Magnolia Extract 98 is a natural extract from the bark of the Magnolia tree, A gentle and sustainable supercritical CO₂ extraction procedure yields a high-purity standardised product consisting of the two isomers Magnolol and Honokiol, The product comes in the form of an almost scentless, off-white and water-dispersible powder, It is a multifunctional compound that can be used for product protection and as an active ingredient, Efficient radical scavenging properties provide the potential for application as an antioxidant and anti-ageing ingredient, The comprehensive antimicrobial spectrum includes efficacy against acne- and caries-causing bacteria, Simultaneously, it can be used to pH-independently protect the product against microbial contamination or decay, especially caused by moulds,

Benefits:

- pH-independent inhibition of bacterial and fungal growth
- Very strong effect against bacteria that cause tooth decay and periodontitis
- Anti-inflammatory effect
- Extracted with supercritical CO₂
