

COSPHADERM® PAS NATURAL

Cosphatec

Cosphaderm® pAS natural is a multifunctional anisic acid derived from plant-based raw materials, Owing to its mild and pleasant fragrance profile, it is well suited for use as a masking agent, helping to neutralise or cover undesired odours originating from other formulation ingredients, Beyond its sensory benefits, anisic acid is known for its pronounced antimicrobial activity at pH values below 6.0, Cosphaderm® pAS natural is especially effective against yeasts and moulds, making it a valuable multifunctional component in cosmetic preservation concepts,

Benefits:

- Natural Multifunctional
- Strong antimicrobial efficacy against yeasts and moulds up to a pH value of 6.0
