

COSPHADERM® SODIUM PAS NATURAL

Cosphatec

Cosphaderm® Sodium pAS natural is the sodium salt of plant-derived anisic acid. Due to its gentle and pleasant scent, Cosphaderm® Sodium pAS natural can be used as a masking agent to cover undesired odours from other ingredients. Another core property of sodium anisate is its strong antimicrobial efficacy against yeasts and moulds at pH values below 6.0. Sodium anisate's great advantage is its superior water-solubility which makes this product even easier to incorporate into cosmetic formulations than anisic acid.

Benefits:

- Readily water-soluble
- Easy to use
- Strong antimicrobial efficacy against yeasts and moulds up to a pH value of 6.0

16128

ISO 16128

Natural Index	0
Natural Origin Index	1

INCI name	Sodium anisate
Source	Star anise
Efficacy Spectrum	Bacteria: ○ Yeast: ● Mould: ●
pH-range	6
Recommended concentration [%]	0,05 - 0,30
Substance Class	Organic acids
Function	• Antimicrobial • Masking • pH adjusters
Type of Formulation	• O/W • Surfactant-based • W/O • Water-based • Waterfree
Solubility	• Water-soluble
Appearance	Powder
Colour	White to slightly yellowish
Odour	Characteristic
Combinable products	• Cosphaderm® LA-T • Cosphaderm® GMCY
Item No.	01-013-xxxx
CAS No.	536-45-8
