COSPHADERM® NAG NATURAL

Cosphatec

Cosphaderm® NAG natural is naturally derived N-acetylglucosamine (NAG), an amino monosaccharide and a natural component of the skin's physiology, As a precursor to hyaluronic acid, NAG is a multifunctional active ingredient that helps to maintain skin hydration and promote a more even skin tone,
Clinical studies have shown that NAG can reduce the appearance of hyperpigmentation and help to achieve a more even complexion. At the same time, its role in hyaluronic acid metabolism contributes to improved epidermal hydration. Thanks to this unique combination of properties, Cosphaderm® NAG natural is an ideal ingredient for skincare formulations focusing on radiance, hyperpigmentation, hydration and healthy ageing,

Benefits:

- Natural N-acetylglucosamine (NAG) as an integral part of skin physiology
- Precursor of hyaluronic acid
- Promotes hydration, elasticity and the skin's barrier function
- Improving the evenness of skin tone

Verified by ECOCERT COSMOS APPROVED · K · NON GMO · VEGAN

ISO 16128

ISO 16128	
Natural Index	1
Natural Origin Index	1

INCI name	Acetylglucosamine
Source	Corn
Recommended concentration [%]	1,00 - 4,00
Substance Class	Acyl amino sugars
Function	• Brightening • Humectant • Skin conditioning
Type of Formulation	• O/W • Surfactant-based • W/O • Water-based • Waterfree
Solubility	• Water-soluble
Appearance	powder
Colour	White
Odour	Characteristic
Combinable products	• Cosphaderm® Sodium Hyaluronate high • Cosphaderm® Sodium Hyaluronate low 5 • Cosphaderm® Sodium Hyaluronate low • Cosphaderm® Sodium Hyaluronate
Item No.	07-023-0025
CAS No.	7512-17-6
