

COSPHADERM® E-1000 NON GMO

Cosphatec

Cosphaderm® E-1000 NON GMO is a blend of the strong antioxidant d-alpha-tocopherol with non-GMO sunflower oil. It contains a minimum total amount of 67.1% d-alpha-tocopherol, equivalent to 1000 IU/g of vitamin E. D-alpha-tocopherol is the most effective form of vitamin E naturally present in the skin. Due to ultraviolet radiation, levels of vitamin E decrease towards the skin surface, making the skin vulnerable to oxidative stress.

Cosphaderm® E-1000 NON GMO acts as a radical scavenger and antioxidant protecting the skin from UV damage, making it a genuine active ingredient particularly suitable for sun-care and anti-aging formulations. All formulations produced with Cosphaderm® E-1000 NON GMO may be labelled "contains vitamin E from a natural source".

- Natural vitamin E with high alpha-tocopherol content
- Antioxidant suitable for anti-aging formulations
- Protection from UV damage, suitable for sun care

16128

ISO 16128

Natural Index	1
Natural Origin Index	1

INCI-Name Tocopherol, Helianthus Annuus Seed Oil

Source Soy, Sunflower

Recommended concentration [%] 0.10 - 0.50

Substance Class Tocopherols

Function

- Anti-aging
- Skin conditioning
- Antioxidant
- Radical scavenger

Type of Formulation

- O/W
- W/O
- Surfactant Based
- Waterfree

Solubility • Oil-soluble

Appearance Clear, viscous oil

Colour Amber to reddish

Odour Typical vegetable oil

Combinable Products • Cosphaderm® AP

Item No. 07-001-xxxx

CAS No.

- 59-02-9
- 8001-21-6
- 200-412-2
