

Cosphaderm® Feel is a triglyceride oil suitable for skin and hair care as well as decorative cosmetic products, providing excellent skin feel. Made from 100% natural vegetable oils, it is free from palm oil and ECOCERT and is COSMOS-compliant. Due to its short-chain fatty acids, it is a polar oil with a high level of spreadability for good skin distribution. Used as a substitute for cyclomethicone D5, it can enable a silicone-free formulation and provide improved combability and shine in hair care products. Due to its polar and slightly viscous character, Cosphaderm® Feel also has the ability to finely disperse UV filters and pigments

- Natural silicone substitute
- High spreadability
- Ability to finely disperse UV filters and pigments
