

COSPHADERM® T-70 NON GMO ECO CC

Cosphatec

Cosphaderm® T-70 NON GMO ECO CC is a blend that is both COSMOS certified and NATRUE compliant. It consists of organic sunflower oil and tocopherols derived from non-GMO plant sources. The blend contains at least 70% tocopherol, with particularly high levels of the beta, gamma and delta isoforms. These isoforms are excellent natural antioxidants and protect sensitive oil and fat components from oxidation. In addition, Cosphaderm® T-70 NON GMO ECO CC can improve the stability of cosmetic formulations in terms of discolouration and odour, which contributes to a longer shelf life.

- Natural antioxidant, COSMOS-certified and organic quality, obtained from GMO-free plant sources
- Contains at least 70% tocopherols
- Protects sensitive ingredients in cosmetic formulations from oxidation

16128

ISO 16128

Natural Index	1
Natural Origin Index	1

INCI-Name Tocopherol, Helianthus Annuus Seed Oil

Source Soy, Sunflower

Recommended concentration [%] 0.05 - 0.20

Substance Class Tocopherols

Function

- Skin conditioning
- Antioxidant
- Product protection

Type of Formulation

- O/W
- W/O
- Surfactant Based
- Waterfree

Solubility • Oil-soluble

Appearance Clear, viscous oil

Colour Yellow to brownish red

Odour Typical vegetable oil

Combinable Products • Cosphaderm® AP

Item No. 04-014-xxxx

CAS No.

- 1406-66-2
- 8001-21-6
