

Cosphaderm® Capo is a natural and multifunctional blend of natural and COSMOS-approved caprylyl glycol with propanediol. Caprylyl glycol is an emollient with Humectant abilities and skin and hair conditioning properties. Propanediol contributes to the Humectant and emollient properties of the blend and keeps caprylyl glycol in solution for easy application with no melting required. The blend also exhibits pH-independent, mild and efficient anti-microbial properties against bacteria, yeasts and moulds.

- Natural and COSMOS-approved caprylyl glycol in liquid blend for easy application
- pH-independent

COSMOS
APPROVED

16128

ISO 16128

Natural Index	0
Natural Origin Index	1

INCI-Name Caprylyl Glycol, Propanediol

Source Vegetable oil, Oil palm

Efficacy Spectrum

Bacteria:	●
Yeast:	●
Mould:	◐

pH-range pH independent -

Recommended concentration [%] 0.60 - 1.00

Substance Class Blend

Function

- Antimicrobial
- Deodorant
- Humectant
- Skin conditioning
- Emollient

Type of Formulation

- O/W
- W/O
- Waterfree
- Water-Based

Solubility • Water-soluble

Appearance Clear liquid

Colour Colourless

Odour Characteristic

Combinable Products

- Cosphaderm® Magnolia Extract 98
- Cosphaderm® GMUD
- Cosphaderm® Sodium pAS natural
- Cosphaderm® Zinc Lactate natural

Item No. 01-020-xxxx

CAS No.

- 1117-86-8
- 504-63-2
